Students and Marshall Scientists Study 'What's Hot' in Sacramento

Researchers from the Global Hydrology and Climate Center at Marshall teamed with students from Sacramento, Calif., the Environmental Protection Agency and Sacramento-area governments this week to study how rapid urbanization has affected climate and air quality in urban areas. An infrared image taken during this study and more information about the Urban Heat Island Pilot Project may be found at the following Web site:

Emergency Warning System Audio Test Set For 3 p.m. Thurs. At Marshall

Dial 911 to Report Medical, Security, Chemical Spill or Fire Emergencies at Marshall

'Employee Express' is Accessible On the World Wide Web

With a unique combination of an employee's Social Security and Employee Express personal identification numbers (PIN), Marshall employees can access Employee Express on the Internet.

Review of current information or changes to financial allotments, health benefits, Thrift Savings Plan, direct deposits, federal taxes, home address changes and PINs can be completed at the following Web site:

www.employeeexpress.gov

Safety Videos Available to All Managers at Marshall

The Center's Industrial Safety Office encourages both Marshall and contractor managers and supervisors to use Safety Film Library videos during safety meetings. You may request a copy of a video or have it transmitted to a closed-circuit television in your area. **Contact:** 544-6155
